Recommendation

To the PCAFPD Scholarship Committee,

It is my distinct privilege to recommend **Ericah Marie Tingcang Nabatlao** for the Peace Corps Alumni Foundation for Philippine Development (PCAFPD) Scholarship. As the Sangguniang Kabataan Chairperson of Barangay Bulua, I have had the opportunity to observe the dedication, civic-mindedness, and developmental drive of our youth leaders and volunteers. Ericah stands out as an earnest, dependable, and community-oriented young woman whose values closely match the foundation's vision of community development.

Ericah has continuously shown an admirable commitment to active volunteerism in Barangay Bulua. Unlike occasional volunteers, she demonstrates sustained engagement by routinely showing up to assist in barangay hall activities and outreach efforts. Notably, she actively took part in key community environmental initiatives, including the Enhanced Community Immersion Symposium organized by the Police Officers - PSBRC Batch 2025-01 Class Foxtrot at Bulua Central School. Her readiness to step up and serve without prompting speaks volumes about her genuine passion for grassroots civic engagement.

Beyond civic participation, Ericah exemplifies what it means to be an empowering peer leader and a proactive young citizen. As one of the selected beneficiaries of our SK Bulua livelihood project, the "Sure Kabuhayan Program," she demonstrated commendable drive and resourcefulness through her venture, "DREAMkeys". What truly sets Ericah apart is her willingness to seize developmental opportunities with enthusiasm, coupled with her instinct to pay it forward. Rather than keeping these doors of progress to herself, she actively encouraged and rallied fellow youth to take part, ensuring that other young members of our barangay gained access to the program's printing and local enterprise opportunities as well. This initiative reflects authentic community leadership: she embraces growth not just for individual advancement, but to uplift her peers and community alongside her.
