Recommendation

Sasha was my student for two consecutive semesters in PUP and she has been the class president since their block was created last school year. One likable trait of Sasha is that she has the initiative for queries and suggestions that will impact the class, someone that you don't have to ask twice to do things, a good of demonstration of leadership. As a former professor, I, along with the faculty was really proud when she became the president-elect of Rotaract Club of Polytechnic University of the Philippines (RAC PUP). Sasha is an example of a student that is easily attested for due these exceptional achievements, reason why I am glad to recommend her for the said scholarship.
