### Recommendation

To Whom It May Concern:

Ms. Lealyn is a preserved member as well as a leader of a group in our organization. She always volunteers or engages in our prepared activities and projects. I know her since she tells everything about her education. She is a working student and provides her needs for her to survive her schooling.

I highly recommend her because I know she deserves this scholarship and if you have given her a chance to get that scholarship, it will be all worth it. She has a good heart and eagerness to volunteer to any organization in the community. She also excels in her academic, she got high grades until now. I am looking forward to giving her a chance to get the scholarship to have a successful life through your foundation.
