Applicant Information

CHAILA S. RETIG

PANGASINAN STATE UNIVERSITY- BAYAMBANG

I offer my strong recommendation for Chaila S. Retig to be a recipient of Peace Corps Foundation for Philippine Development scholarship. I have had the pleasure of being a co-adviser closely with Chaila S. Retig at Supreme Secondary Learners Government, where she has demonstrated exemplary leadership qualities that are truly deserving of recognition.

During her tenure as President, Chaila S. Retig consistently exhibited a remarkable ability to inspire and guide teams. One notable instance of her leadership was the NGL Platform. She effectively led a diverse team, navigating challenges with strategic insight and fostering a collaborative environment that resulted in remarkable and good outcomes. She possesses an exceptional ability to motivate and empower team members, which is evident through her approach to setting clear goals, providing constructive feedback, encouraging professional development. She also demonstrated a keen capacity for strategic thinking, as seen in her being creative and thinking critically for the sudden events and activities. Furthermore, Chaila S. Retig has consistently shown a commitment to organizational values, mental health awareness, community service, and innovation aligning her leadership style with the broader objectives of our organization. Her interpersonal skills, coupled with her resilience and adaptability, make Chaila a highly effective leader and a valuable asset to any team. During Brigada Eskwela 2023, she led a project that was "Turning Trash into Cash" and led a whole clean drive in San Julian National

High School. After eliminating all of the trash that can't be used and keeping those that can be sold, they earned a total of ₱1,200.00. The money that they earned will be their funds for the events. She also led the "No Bullying Campaign" in our school, and she made and edited the flyers that she distributed to the students. When it comes to school events, she never fails to lead her fellow officers; she can think of things that they can make and sell for additional funds, just like the handmade satin flower boquette, yarns, balloons, and package box with chocolates and flowers in it. Also an activity that can make her fellow students and teachers happy while earning for their funds, like Jail Booth, Wedding Booth, I-Express Mo Yarn, Shout outs, and SSLG on the go. For the mental health of her fellow students, she implemented the NGL, wherein she created a Facebook page of our organization and posted the link of the NGL for the students to message their concerns, suggestions, and rants anonymously and comfortably. The NGL was through the internet, while the Vent-O Box was in our school. It has the same goal as the NGL.

Aside from her responsibility as an SSLG President, she was also the Editor-in-Chief of our student publication named "The Champions" and she was a BKD Vice President for two consecutive years. She was also competing with another school. She was one of the school representatives when it comes to journalism, quizzes, essays, and video making. She went far from what we had expected. After all of her responsibilities, she still managed to be our valedictorian or the Words of Gratitude Speaker with a general average of 96.

I wholeheartedly endorse Chaila S. Retig for this scholarship. She has proven to be a dynamic and capable leader, and I am confident that her continued growth will have a significant and positive impact. You can check our Facebook page that shown her successful leadership.
