Applicant Information: Use additional pages as needed

Name: Marjie Barreto

Current School:

Recommendation

I am writing to highly recommend Marjie for any opportunity she may seek. As a dedicated student from an underprivileged background, Marjie has demonstrated exceptional commitment to her personal growth and to the welfare of others, especially through her involvement with Bahay Tuluyan's programs and services.

Marjie actively participated in street education, drop-in support, and the independent living skills programs provided by Bahay Tuluyan. Beyond being an engaged participant, she has taken on leadership roles in advocacy activities, promoting the needs and rights of children in street situations. Her passion for child advocacy is evident in her efforts to educate younger children about their rights and to inspire her peers to engage in these important programs.

In addition to her advocacy work, Marjie has consistently led youth group activities and facilitated consultations with children, where she has proven her ability to listen to their concerns, identify solutions, and provide guidance. Her leadership and problem-solving skills stand out, and she is known for being proactive and compassionate in addressing the needs of her community.

Marjie's determination to succeed and her desire to contribute positively to society are qualities that will undoubtedly make her a valuable asset in any endeavor she pursues. I strongly believe that she will continue to make significant contributions to the betterment of society and excel in all her future endeavors.
