

PCAFD Board of Directors:

Greetings of Peace!

I am writing to express my support to Mr. Jomar P. Camba, a graduate of Pangasinan State University Alaminos Campus with a degree in Bachelor of Secondary Education majoring in Mathematics, who is currently taking a Masters of Arts in Education with a Major in Mathematics, for his application to the Peace Corps Alumni Foundation for the Philippine Development (PCAFD). As his Supreme Student Council Adviser and Instructor, I have had the privilege of witnessing his unwavering commitment and dedication not just to his academic but also to leadership through various organizations and leadership roles.

During his tenure, he stood out as an academic achiever, graduating with distinction and received recognitions in research, performing arts and leadership.

As a Federated Student Government Officer, he was involved in a variety of activities, advocating for students' needs and organizing projects that promoted a feeling of community at the university. His leadership went beyond the classroom; he was an active member of the Performing Arts Club, where he balanced his studies with his artistic interests. Furthermore, he was named one of the top research presenters, demonstrating his ability to critically interact with research and successfully convey his findings.

His multifaceted achievements, both in academics and leadership, highlight his versatility, perseverance, and commitment to personal and professional growth. His active participation in extracurricular activities, coupled with his academic and professional accomplishments, sets him apart as a highly deserving candidate for this scholarship.

I am confident that Jomar will continue to excel and make significant contributions to the field of education. His passion for teaching, strong leadership skills, and unwavering commitment to excellence make him an ideal recipient of your prestigious scholarship.

Thank you for considering his application!

Sincerely,

Elmer Diocares
Associate Professor V
