Name: Leonela Base

Current School: Commissioner Luis R. Asis National High School

Recommendation

I am delighted to recommend Leonela D. Base for your scholarship. She is in my advisory class in the STEM (Science Technology Engineering and Mathematics) track. She had done excellently at my class and I don't have any complaints about her.

She has expressed her burning passion in my class (General Biology 1). I have seen her hard work she puts toward my subject. I have also seen her passion in helping other people. She have volunteered in many different activities. Spanning from environmental activities, to helping people amidst a calamity. She is very dedicated to helping her community. Therefore, I know that she will be able to make great contribution in any field she chooses to pursue.

She has a very environmentalist character. Therefore I approve her choice to take the environmental engineering as her program in college. If she gets this scholarship, I believe that she will be able to contribute to the field she chose and the community
