Applicant Information: Use additional pages as needed

Name: Richmond Mones

Current School: Don Ramon E. Costales Memorial National High School

Recommendation

I am pleased to recommend Richmond Mones for the Peace Corps Scholarship. I have had the privilege of working with Richmond first as his Computer Programming instructor and later as his advisor in our Robotics and IT Club. Richmond joined my Computer Programming class during the challenging time of the pandemic, where he immediately stood out as a reliable and proactive student. Not only did he fully participate in class discussions and activities, but he also volunteered to assist in managing our online sessions, ensuring a smooth and effective learning environment for his peers. Richmond consistently turned in his assignments and quizzes on time, reflecting his dedication and strong work ethic.

Richmond later joined the Robotics and IT Club, where he served as our Public Information Officer, a role he fulfilled with excellence. He actively contributed to club initiatives and was instrumental in fostering a vibrant and engaged community within the school. His enthusiasm, creativity, and organizational skills made him an invaluable member of the club. Despite his extracurricular commitments, Richmond maintained a high academic standard, demonstrating his ability to balance multiple responsibilities while excelling in each.

Richmond Mones embodies the values of responsibility, dedication, and service—qualities that make him an ideal candidate for the Peace Corps Scholarship. I am confident he will bring the same commitment and positive impact to any community he serves.
