Recommendation

I highly recommend Jackie for any program or opportunity that supports her personal and professional growth. She has consistently demonstrated her commitment to alternative education by actively participating in activities and encouraging both her peers and younger children to get involved in Bahay Tuluyan's programs. Jackie's influence as a role model is evident, as she inspires others to engage in positive community-building initiatives.

Her determination to improve herself, both professionally and personally, is remarkable. She has clear aspirations of finishing college, not only to enhance her family's living conditions but also to make meaningful contributions to society at large. Her drive, leadership, and commitment to uplifting those around her make her an outstanding candidate for any opportunity that fosters learning and development.

I am confident that Jackie will continue to excel and positively impact her community and beyond.
