To Whom It May Concern,

It is my pleasure to write this letter of recommendation for Dolly F. Gutierrez, whom I have the privilege of teaching this academic year. As the department chair and professor of Modern Physics, I observe that she possesses strong determination and hardworking abilities in her academic journey, which makes her an excellent candidate for the PCAFPD scholarship.

Dolly has been demonstrating strong academic performance in Modern Physics. I observe that she excels in our class, specifically in understanding the concepts of our subject. She also actively participates in our class discussion and activities. Her interest in the subject matter is evident in her thoughtful questioning and engagement in the class. I could also see her determination and hard work in her academic performance which is very commendable, and I also admire her dedication in learning the subject matter.

Aside from her academic performance in my subject, she also excels in other subjects especially in her major as it was reflected in her grades. She also participated in outside activities such the implementation of their research, and I saw how determined she is in what she is doing, that is one of the qualities that embody the true spirit of a PSUnian.

Considering her academic achievements, drive, and commitment to her studies, I strongly recommend Dolly Gutierrez for the PCAFPD Scholarship. She has the determination and perseverance to make significant contributions to her academic journey and the broader community in the future.

Sincerely,

**Nelda J. Garcia, PhD**  
Department Chair  
Associate Professor V  
Pangasinan State University-Bayambang Campus
