Recommendation

Ashley Mae Macaraeg Baluyut was not just my former student but my advisee for 2 years in Senior High School.

With that, I have seen her leadership skills in many ways whether it is in the classroom settings as she excels in the class and her leadership skills is very evident, oftentimes she's the representative of the group or the leader itself like in writing a research paper, directing a play and other projects and/or performance tasks. In addition, she's not only a classroom officer but she's been also a SSLG officer____ and this speaks a lot about her leadership skills.

When it comes to her accomplishments, I would say being a consistent honour student is her major accomplishment. In fact, she graduated with flying colors and received other special awards.

With Ashley's personality, leadership skills, and accomplishments, she plays an important role and has a big impact in the community especially at school. She's indeed the epitome of a good student, admired by many.
