

Recommendation Letter from Auntie

To Whom It May Concern:

I am writing this letter to recommend my niece, Jane Monton Jaramilla, for any scholarship program that can help support her education. I have known Jane since she was a child, and I have seen how responsible, respectful, and hardworking she has always been.

Jane comes from a humble and struggling family. Her parents do not have regular jobs, and they sometimes go to the farm just to earn enough money for school expenses and daily needs. Despite these challenges, Jane never gives up. She continues to do well in her studies and always tries her best to make her parents proud. She also helps at home and takes care of her younger siblings when needed.

I believe that Jane deserves a scholarship not only because of her financial situation, but also because of her determination and good heart. I know that if given the chance, she will do great things in life and use her education to help her family and others in need.

Please consider her application. Your support will mean a lot to her and to our family.

Sincerely,

Jessa Jaro Jaramilla

Aunt of Jane Monton Jaramilla
