

ACTIVITY 30 WORK IMMERSION HIGHLIGHTS

During my work immersion at COMELEC Office, I have learned and acquired lots of activities done inside the office. I had the chance to observe the meticulous process of voters registration, from data encoding to verification and I also gained insight into how election logistics are coordinated to ensure efficiency. I also participated in preparing election materials and learned about the crucial role of modern technology. Indeed, it was eye-opening to see the level of coordination and attention to detail required to maintain a fair and smooth electoral process and deepened my understanding of the importance of free and fair elections in a democracy.
