

5 Ways To Keep The Environment Clean

1. Throw rubbish in the trash can

Dispose of trash in the right place so as not to pollute the surrounding environment

2. Plant lots of trees

Plant lots of trees to avoid deforestation and avoid illegal cutting of trees

3. Make compost from organic waste

We can utilize organic waste by making compost which can fertilize plants

4. Recycle waste into something useful

we can recycle inorganic waste into something more useful and reusable
