

To Whom It May Concern,

It is my honor to recommend Mr. Tristan Rae Torres for your scholarship program. As the Guidance Head of University of La Salette Senior High School Department, I have witnessed Tristan's growth as a scholar, leader, and student-athlete who embodies resilience, integrity, and service.

Despite financial hardships, Tristan has remained steadfast in his pursuit of education, sustaining his academic scholarship in college and excelling as a Dean's Lister. He has also been recognized as a Top 1 Performing Freshman Student, which reflects his commitment to excellence.

Tristan's leadership extends beyond the classroom. He has held numerous positions such as PSYSC Regional Chairperson (2023–2024), SYLC Minute Secretary (2024–Present), ULS Graduate Alumni Business Manager, and ICT Wizards Club President (2021–2022). Most notably, he was the Camp Director of the Regional Youth Science and Technology Camp, where he organized a three-day event that promoted science awareness and environmental responsibility through initiatives like tree planting. His ability to lead peers and inspire participation is a testament to his strong leadership skills.

In addition, Tristan's achievements highlight his versatility: NYSTESC Best Design Engineer, Leadership Award (Gold), Outstanding Kabataang Victorian, Outstanding Performance in Sports (Gold), and PRISAA Volleyball National Team representation. Balancing academics, leadership, and athletics is not an easy task, yet Tristan continues to excel in all areas.

I believe that Tristan is not only deserving of this scholarship but will also use this opportunity to continue pursuing his dream of becoming a teacher. His academic excellence, leadership experience, and commitment to service assure me that he will contribute meaningfully to both education and community development.

Attached is his Credentials that the school noticed.
