Recommendation:

This is to recommend Mr. Jericho Arvin L. Caña for a scholarship to College for School Year 2026-2027.

Mr. Caña is hard of hearing and has been a trainee/student of Welcome Home Foundation, Inc. for two years (2024-present). In his first year with us, he has shown the potential of a good learner and a leader. He wanted to pursue college education this school year 2025-2026, however, his family has no capacity to support him. Right now, to prepare him for a possible college education, we are training him for the life skills program for the deaf. He is currently teaching our new deaf students who graduated from High School. With proper training and education, he can be a good teacher for the deaf in the future.

Aside from his academic skill, he is also a very talented dancer. In fact he and his team have won several dancing awards. He is also a kind-hearted person who is always willing to help others, especially the deaf. He is patient and very hopeful of his future.

Let us not deprive Mr. Caña of the opportunity to be educated and participate in the mainstream of society where he can prove that despite his special needs he can be included. Let us allow him to show to the world that the deaf and hard of hearing can do anything they put their heart into.

Thank you.
