**To the Scholarship Committee,
Peace Corps Alumni Foundation for Philippine Development Scholarship**

Good day,

It is my privilege to recommend Ms. Julia Rose G. Fernandez as a candidate for the Peace Corps Alumni Foundation for Philippine Development Scholarship. As her teacher, I have come to know Julia not only through her academic performance but also through the values and character she consistently demonstrates inside and outside the classroom.

Julia is a student who approaches challenges with optimism and resilience. What sets her apart is her humility and willingness to learn—not only from teachers but also from her classmates. She listens attentively, works cooperatively in group settings, and always ensures that her contributions uplift the performance of her peers. This ability to balance personal excellence with teamwork is a rare quality that makes her stand out among her classmates.

Moreover, Julia shows a genuine concern for the well-being of others. Whether by encouraging her classmates, volunteering in school activities, or helping organize class responsibilities, she brings a spirit of service that reflects leadership rooted in compassion. These qualities make her more than just a high-achieving student; they make her a role model for others.

I am confident that Julia will continue to thrive in higher education and will use her knowledge, skills, and values to create a meaningful impact on her community and our country. For these reasons, I strongly support her application for this scholarship.

Sincerely, 
Raymond S. Sabroso
