Shalom!

I am Kennel Jane Pangaral, staff of Intervarsity Christian Fellowship, a non-profit organization that aims to train students to be leaders that lives out Biblical values. I am writing to testify that Jean Grace Orlanes is a diligent student that excels in her academic performances. Jean lives with us in a staff house for two years. She is a student leader that is shy and timid and would prefer to work in the background where no one would notice but she does have boldness and courage when given the opportunity to lead a group during our camps.

Moreover, she is a dreamer and amidst the financial challenges that her family faces, she kept her faith and will to finish her study. For sure she has more rooms for improvements as a young student leader but I truly believe that your investment to this student will never be wasted. Her diligence in her studies shows that she seriously values her education and she will not take the scholarship for granted. She is a smart young leader with a teachable spirit. She has the heart for the least, lost and last in our society. She is also practical in making decisions and firm with her convictions. I truly believe that this scholarship will empower her to become the person that God wanted her to be. This scholarship will help not just her but her family as well.

Looking forward and praying deeply for your positive response to her application. Thank you and the Lord bless you more! Should you have other questions or inquiries related to Jean Grace do not hesitate to contact me in my email [kenneljane.pangaral@ivcfphil.org](mailto:kenneljane.pangaral@ivcfphil.org) or mobile number: 09355435950.

Again, thank you for considering her.

In Christ,
