**Scholarship Committee
Peace Corps Alumni Foundation**

Dear Members of the Scholarship Committee,

I hope all is well! I am Maris Juliane Bunsilaw, guidance designate of St. Louise de Marillac College of Bogo and it is with great pride and heartfelt support that I recommend **Lloyd Justin Anthony M. Putong** for the Peace Corps Alumni Foundation Scholarship. As the Guidance Designate of **St. Louise de Marillac College of Bogo**, I have had the privilege of knowing Lloyd and witnessing his exceptional character and dedication to both academics and community service.

Despite the financial and personal challenges brought about by his father's early retirement and the family's ongoing financial obligations, Lloyd has consistently excelled in his studies while taking on responsibilities beyond those of a typical student. As the eldest of three siblings, he balances family duties with a steadfast commitment to education, maintaining a **strong academic record** and ranking among the top students of his batch.

What makes Lloyd truly remarkable is not only his academic strength but also his heart for service. Among his many contributions, he has:

- a. **Leadership and Governance:** Lloyd has served as **Class President** for both Grade 11 and Grade 12, representing his classmates in school meetings, organizing events, and fostering a positive classroom environment. He also led the **SSVP Club** as **President** in Grade 11 and **Vice-President** in Grade 12, spearheading outreach programs and the club's annual service initiatives. Earlier on, he demonstrated his commitment to transparency as a **Class and Club Auditor**, ensuring fairness in financial matters.
- b. **Academic and Competitive Achievements:** He displayed strong communication skills as **Male Anchor** in both the English Fest Radio Broadcasting competition and the Division Schools Press Conference (Filipino TV Broadcasting), sharpening his public speaking and teamwork abilities under pressure.
- c. **Teaching and Mentorship:** Lloyd stepped up as a **Substitute Teacher** during LaMP's Day, confidently teaching Grade 10 Math lessons and managing two class sections over

two days; a great responsibility for a high school student that highlights his adaptability, patience, and leadership.

- d. **Service and Sustainability:** He has actively participated in environmental projects, including the **Eco Hollow Block Making** initiative, where he helped produce sustainable building materials, and local clean-up drives promoting community responsibility. He also volunteered as a **P0 Market Vendor**, distributing essential goods to families in need, and as a **Rescuer** during school fire and earthquake drills, demonstrating quick decision-making and commitment to safety.

Alongside these achievements, Lloyd is deeply committed to his dream of becoming an **engineer**. This career path is not only a personal aspiration but also a meaningful way for him to give back to his family and his country. He sees engineering as a way to create solutions that improve people's lives; whether through building safe infrastructure, developing sustainable technologies, or contributing to community development projects. For Lloyd, becoming an engineer is more than a profession; it is a way to combine his love for problem-solving with his desire to help others and support the progress of the Philippines.

Earning this scholarship would not only provide the financial support needed to continue his university education, but also empower him to pursue his engineering degree without adding to his family's financial burden. I am confident that with your support, Lloyd will excel in his studies, honor this opportunity, and emerge as a compassionate professional dedicated to nation-building.

Thank you for considering this exceptional young man. Should you require additional information, please feel free to contact me at ms.maris@ciccebu.edu.ph.

With sincere respect,

Maris Juliane Bunsilaw

Guidance Designate
