

Scholarship Recommendation Form

Instructions: Thank you for being a recommender for the PCAFPD scholarship. Recommendations are used as part of the selection process. Please type your information below and provide a digital copy to the applicant for submission. Hand written responses will not be accepted.

Recommender Information

Name: Prof. Omainah M. Bago-bago

Relationship to applicant: Student

Organization/School: MSU – Marawi Senior High School

Email address: omaimahbagobago@gmail.com

Applicant Information: Use additional pages as needed

Name: Fatma Hanna Lynn P. Moamar

Current School: Mindanao State University

Recommendation

PCAFPD scholars are chosen on the basis of their financial need, academic performance, and commitment to community service and leadership. As the applicant's reference, please describe the applicant's demonstrated leadership skills, accomplishments, and impacts on your community and any other relevant information you feel the committee should know about the applicant.

As a faculty at MSU - Marawi Senior High School, I strongly endorse Fatma Hanna Lynn P. Moamar for the PCAFPD Scholarship as one of the most promising and service-minded scholars from our program. Ms. Moamar has maintained a trajectory of academic excellence, graduating in the Top 10% with High Honors and proving their aptitude in rigorous STEM competitions, including the Philippine Mathematical, Biology, and Chemistry Olympiads. Equally impressive is their active community involvement through student organizations like Inmanneva Arzcalois and The Olympiads, as well as programs covering digital literacy, mental health, and emergency response, she consistently use her time and talents to uplift others and address pressing needs in our local communities.

While Ms. Moamar has demonstrated remarkable potential, financial hardship poses a significant challenge to her college education. Supported solely by a mother working hard as a teacher to keep seven children in school, the family faces persistent financial strain. Pursuing a degree in BS Biology specializing in Animal Biology involves demanding field trip fees and laboratory costs that put a heavy burden on their household. A PCAFPD scholarship would serve as a great help for Ms. Moamar, allowing her to focus on her studies, advance animal biology research, and continue serving her community. I endorse her application with complete confidence.
