

Recommendation Form 2:

Relationship: The recommender is my older brother, who has been my primary mentor and witness to my commitment to academic excellence and community involvement throughout my life.

I have known Angel L. Masalihit all her life as her older brother. Growing up in a household where resources are limited, I have witnessed firsthand her unwavering dedication to education. Despite the challenges we face, Angel has never lost focus on her dream of becoming a teacher.

Angel is deeply committed to serving our community. I have seen her actively participate in local initiatives, such as barangay clean-up drives and youth-led activities in Burdeos, Quezon. She balances these volunteer efforts with her academic responsibilities, showing remarkable time management and leadership skills. She is a compassionate, resilient, and hardworking individual who deserves this opportunity to continue her studies. I fully support her application and believe she will use this scholarship to eventually contribute back to our community as a licensed professional teacher.
