Recommendation

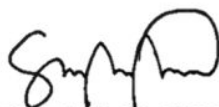

PCAFPD scholars are chosen on the basis of their financial need, academic performance, and commitment to community service and leadership. As the applicant's reference, please describe the applicant's demonstrated leadership skills, accomplishments, and impacts on your community and any other relevant information you feel the committee should know about the applicant.

Leadership skills

When I was at Tungao NHS, her previous school when she was a junior high school, she's the secretary of their classroom yet she sure can lead her classmates in every group activity. She is mostly the leader of their group. Once she's the leader, I can expect a good output. Her classmates will also recommend her to be the leader. Even if there are contests by section, she's always the leader of their group. She's also tough and firm in her decisions, having a strong personality.

Accomplishments

She had a lot of accomplishments as far as I know. She's a total package; a consistent honor student, good leader, good follower, and very talented. During her grade 10 class, her section ranked first place in almost all of the by section activities. She's the leader mostly of these school-based contests like hip hop, theater, playwright, cheer dance, mass dance, reader's theatre and many more.

Impacts on community

I had an activity before on which they need to volunteer in their barangay to uplift their spirit of volunteerism and patriotism. She led her classmates to their barangay hall to do a clean up drive on which the barangay officials were amazed on how they volunteered themselves despite their young age. Most of the youths today are not active on their respective barangay but Kyla has the will to help her barangay.

Overall, I highly recommend Kyla to be one of your scholars. She's a promising student and she's never involved in any scandals or fights in school. She's always the mediator and the one who will discipline her classmates even without their teachers. She always follows the instructions directed at her without any errors. She's actually one of the brilliant students I'd met during my teaching career. I can rely on her. I am confident that her whole class will not be in chaos even without my presence if I have important meetings to attend to. She's focused on her education and will always be prepared in my class. She's a catch and a future catalyst of change from her generation. I believe in her capacity. She will surely be an asset to our country in the future.
