

RECOMMENDATION FOR PCAFPD UNDERGRADUATE SCHOLARSHIP

To the Peace Corps Alumni Foundation for Philippine Development (PCAFPD) Scholarship Committee:

I am pleased to recommend Marco F. Roldan for the PCAFPD Undergraduate Scholarship. As the President of Municipal Advocates for Kabataan Empowerment (MAKE), I have had the opportunity to work with Marco through youth and community-based activities.

Marco has demonstrated a genuine commitment to volunteerism and youth development. He has participated in and taken active roles in various community activities, including serving as a facilitator. Through these experiences, I have seen his willingness to contribute his time, skills, and effort in support of other young people and the wider community.

What stands out about Marco is his willingness to take responsibility. As a volunteer and facilitator, he has worked with different people, supported program activities, and helped create an environment where participants could engage and participate. He understands that leadership involves cooperation, patience, communication, and service.

His involvement in MAKE has also demonstrated his potential as a young leader. Rather than viewing leadership simply as a position, Marco has shown that it can be expressed through active participation, helping others, and taking responsibility for assigned tasks. His experiences have helped him develop skills that will be valuable in his academic journey and future career.

I believe Marco is well suited for the PCAFPD Scholarship because he has demonstrated academic ambition alongside a commitment to community service and youth leadership. As a student pursuing Bachelor of Secondary Education major in English, he has the opportunity to use his education to further serve and empower young people.

I strongly recommend Marco Ferrer Roldan for the PCAFPD Undergraduate Scholarship. I believe that with the support of this scholarship, he can continue developing his potential and eventually use his education and skills to contribute meaningfully to his community and the Philippines.

Respectfully,

Clarissa Marie Angelina G. Westram
President

Municipal Advocates for Kabataan Empowerment (MAKE)
