

Letter of Recommendation

To Whom It May Concern,

I take pride in recommending this student for your scholarship program. I had the pleasure of witnessing their dedication to work and attitude during the work immersion at QA Clinic.

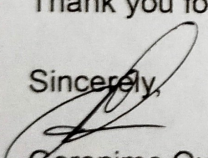

Right from the start, I saw how eager and responsible they were to learn. They listened to instructions and executed the given tasks very diligently. They remained professional during their stay at our clinic and showed punctuality and respect, and they did not hesitate to help when necessary.

The one thing that stood out about them is that they possessed a positive attitude and determination to better themselves. They asked questions when required, followed suggestions and advice, and were quick learners from every situation. Their sincerity, discipline, and respect for others made them an asset in our working environment.

I am fully convinced that they have the character, determination, and capability to excel in their studies and future career as well. I can proudly recommend them for your scholarship program.

Thank you for your consideration of this recommendation.

Sincerely,

Geronimo Quiambao

QA Clinic Work Immersion Supervisor
