LETTER OF RECOMMENDATION

To Whom It May Concern,

I am writing this letter to wholeheartedly recommend **Ms. Ana Ysabel C. Inocentes** in support of her scholarship application as she pursues her program. I had the opportunity to become her Physics teacher during her Grade 12 year at Saint Augustine School, Inc., and she is honestly one of the students I will always remember for her dedication, respectful attitude, and willingness to learn.

Physics is not exactly the easiest subject to warm up to, but Ana Ysabel never seemed to struggle with that. She picked up lessons quickly, and what I appreciated most was that she didn't just sit quietly and take notes, she actually participated. During problem-solving sessions, she was one of the few who would raise her hand, try, and engage. That kind of willingness to put herself out there in a difficult subject says a lot about her confidence.

And her grades backed it all up. She consistently scored high on her major exams, not because she was just good at memorizing, but because she actually understood the material. That distinction matters a lot to me as a teacher.

I also want to speak to why this scholarship would mean so much for her. School is no small investment, and I know that for many of our students, financial constraints are a very real barrier between them and their dreams. Ana Ysabel has already shown that she has what it takes academically, it would be a shame if something as practical as finances stood in the way of that. She deserves the chance to pursue this path, and I genuinely believe she will make the most of it.

Thank you very much and may God continuously shower you with a lot of blessings.

Warm regards,

Ms. Jennifer Santiago

Senior Highschool Teacher

Saint Augustine School, Inc.
