Organization/School: Sumalo Integrated School

Email address: joel.atrazo@deped.gov.ph

Applicant Information: Use additional pages as needed

Name: Keith Anne D. Enriquez

Current School: Tomas del Rosario College

Recommendation

To the PCAFPD Scholarship Selection Committee:

I am pleased to recommend Keith Anne D. Enriquez, a Grade 12 STEM student at Tomas del Rosario College, Balanga City, Bataan, and a former student of mine from Grade 11 STEM St. Joseph. As her former class adviser, I have had the opportunity to observe her academic excellence, leadership skills, and active involvement in our school community.

Keith Anne has demonstrated strong leadership throughout her Senior High School years. In Grade 11, she served as Vice-Mayor of her class and Chairperson of the Grade 11 Research Committee and ran for Programming Chair of the TRC Senior High School Science Club. In Grade 12, she was elected Secretary of the TRC SHS Science Club and Secretary General of the TRC SHS Supreme Student Government, reflecting the trust her peers have placed in her ability to organize, communicate, and represent the student body.

Despite these responsibilities, Keith Anne has maintained excellent academic performance. During the School Year 2025-2026, she received With Highest Honors, with a General Weighted Average of 97.84, ranking 5th out of 258 Grade 11 students. This demonstrates her dedication, discipline, and ability to manage her time effectively. Moreover, Keith Anne is jolly, proactive, articulate, and well-organized. She is confident and assertive, takes initiative, communicates her ideas clearly, and works well with others.

Given her academic achievement, leadership experience, and active involvement in the school community, I believe Keith Anne is a deserving candidate for the PCAFPD Scholarship. I am confident that this opportunity will support her continued growth and enable her to contribute meaningfully to her community.

I am pleased to recommend Keith Anne D. Enriquez and wish her success in her scholarship application and future endeavors.
