Name: Qncy Ruby R. Merka

Current School: St. Paul University Surigao

Recommendation

It is with genuine pride that I recommend **QNCY RUBY R. MERKA** for the PCAFPD Scholarship. As her former class adviser in Grade 12-Section Stevens in Science, Technology, Engineering, and Mathematics (STEM) Strand at Surigao del Norte National High School, what I remember most about her is not just her grades, though graduated With Honors and a 97% average. It is her character.

In class and in every school activity, I witnessed her grow into one of the most dedicated, responsible, and compassionate student-leader in her batch. She is dedicated because she always gives her best in every task that I assigned and goes beyond expectations. She is responsible because she can be trusted with leadership roles and important tasks in school activities and outreach programs. Most of all, she is compassionate because she looks out for her classmates and lift others up with her.

I believe Qncy Ruby is a perfect fit for this scholarship because she has the character of a great leader even at a young age. I am confident that if given this opportunity, this will actually remove financial barriers and allow her to focus fully on her goal of pursuing her desired undergraduate program. Thank you for your consideration. Godspeed!

Sincerely,

Sincerely,
ERIC JOHN A. GILLO
Special Science Teacher I
Surigao del Norte National High School
